Modifications to Dental SARs

As you are aware the CMS Net system was changed to allow users to make certain modifications to previously issued SARs. However, Delta Dental has not yet updated their system to accept a modification to SARs issued for dental procedures. The change is in progress at Delta but at present if it is necessary to modify an existing Dental SAR a NEW SAR must be issued. SARs that have been modified for dental services are not on file at Delta and any claim submitted by a dental provider to Delta using a modified SAR will be denied.

As soon as Delta has completed the programming required to accept modified SARs we will let you know.
